The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

Review of results for the year ended 31 December 2009 as compared to corresponding financial year ended 31 December 2008

Group revenue analysed by business segment for the year under review is as follows: -

	2009 S\$'000	Sales mix %	2008 S\$'000	Sales mix %
Mobile Technology (TECH BU)	8,784	46	13,191	67
Mobile Value-Added-Service (VAS BU)	7,426	39	4,813	25

Distribution	-	-	227	1
Operation Support Systems (OSS BU)	7,476	39	3,546	18
Less: Inter-segment sales	(1,037)	(5)	(662)	(3)
Total	18,964	100	19,633	100

Note:

The Group had, in 2008, discontinued its low growth and low profitability Distribution business segment. This business segment was not classified as Discontinued Operation in accordance with FRS 105 Non-current Assets Held for Sale and Discontinued Operations, as its results were immaterial to the Group.

In 2009, the Proprietary Solutions business segment was split into the Mobile Value-Added-Services Business Unit (VAS BU) and the Mobile Technology Business Unit (TECH BU) following the completion of the Group's initiative to reorganise itself into distinct business units comprising TECH BU, VAS BU and OSS BU. The Company's wholly owned subsidiary company, Unified Communications (OHQ) Sdn Bhd received the Malaysia Industry Development Authority's approval in October 2009 of its Operational Headquarters (OHQ) status to provide certain approved OHQ services to its group companies. This OHQ status is granted for 10 years with certain tax incentives.

The Group recorded consolidated revenue of S\$18.9 million for the financial year ended 31 December 2009, representing a decrease of 3% compared to revenue recorded for the preceding year. The lower revenue recorded in the year under review is mainly attributable to the absence in 2009 of project revenue from TECH BU relating to the "Build Phase" of the Mobile Number Portability Clearinghouse project in Malaysia which was completed in 2008. However, the lower revenue of TECH BU for 2009 had been offset by higher revenue achieved by both VAS BU and OSS BU.

In spite of the lower consolidated revenue recorded, the Group achieved a higher net profit after taxation of S\$3.2 million, but a slightly lower EBITDA of S\$4.5 million, as compared to a net profit after taxation of S\$2.7 million and EBITDA of S\$4.7 million respectively achieved in the preceding year.

This improvement in the profit performance of the Group in the financial year 2009 is attributable primarily to the following factors:

- * An improvement in gross profit driven by higher gross profit margin of 49% achieved in the year under review, as compared to 47% in 2008. This higher gross profit margin is attributable to a more favourable revenue mix for the year comprising higher software license fee and services revenue.
- * A notable reduction in net operating expenses in the year under review, amounting to a decrease of 13% (or S\$1 million) on the net operating expenses incurred in 2008. This reduction was secured through the further expense saving achieved in the operations of TECH BU and VAS BU, as well as the absence of operating expenses for the Distribution segment, which was discontinued in 2008. In addition, as certain intellectual property assets and plant and equipment of the Group had reached the end of their estimated useful lives, this resulted in lower amortization and depreciation charges in the year under review.

The improvement in net profit performance for the year under review was however partly offset by a decrease in the share of results of an associated company of approximately SGD0.6 million, mainly due to lower revenue recorded by the associated company.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on (continued)

Review of the Group's financial position as at 31 December 2009 as compared to the Group's financial position as at 31 December 2008

Current assets decreased by S\$2.7 million or 11% from S\$27.2 million as at 31 December 2008 to S\$24.5 million as at 31 December 2009. This decrease is mainly attributable to the decrease in trade and other receivables amounting to S\$6.4 million as a result of receipt of payments from trade receivables and the reclassification of certain trade and other receivables as non-current assets. The receipt of payment from trade receivables contributed to the improvement in cash and cash equivalents held by the Group to S\$15 million as at 31 December 2009, from S\$10.1 million as at 31 December 2008.

Total non-current assets of the Group increased by S\$4.5 million or 77%, from S\$5.8 million as at 31 December 2008 to S\$10.3 million as at 31 December 2009. This increase is mainly attributable to the reclassification of certain trade and other receivables from current to non-current, and higher plant and equipment as a result of investment in new revenue share assets by VAS BU.

Total liabilities of the Group decreased by S\$0.9 million (or 10%) from S\$9 million as at 31 December 2008 to \$8.1 million as at 31 December 2009. This decrease is mainly due to the reduction in trade and other payables by S\$0.8 million.

Review of the Group's cash flow as at 31 December 2009 as compared to the Group's cash flow as at 31 December 2008

The Group's cash from operations for the year under review was S\$7.9 million, compared to S\$8.7 million for the preceding year. This decrease in cash from operations is mainly attributable to the decrease in sales and hence collections of trade and other receivables of the Group.

Operating cash flow before working capital changes for the year under review decreased to S\$3.8 million as compared to S\$4.2 million for the preceding year. This decrease in operating cash flow is mainly due to the lower net foreign exchange gain of the Group in the year under review.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No profit forecast has been issued for the financial year under review.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Barring any unforeseen circumstances, the Directors remain optimistic about the Group's long-term prospects.

The Directors believe that the Group's efforts to execute its three key strategies for growth and development are showing positive results. On the back of the positive results achieved for the year under review, the Directors believe that the Group will continue to make progress in improving its future performance and financial results.

The Group will continue to strive towards maintaining profitability guided by strategies that have been mapped out. Focus will continue to be given on

- * mobile data and value-added services ("VAS") solution/applications and businesses;
- * recurring revenue streams via managed services business; and
- * participating in the growth of developing and emerging telecommunications markets such as South East Asia, South Asia and the Middle East.

13. Segmented revenue and results for business or geographical segments (of the group) in the form presented in the issuer's most recently audited annual financial statements, with comparative information for the immediately preceding year. (continued)

Following the completion of the reorganisation initiative, the Group has from 2009 onwards changed its business segments into distinct business units comprising TECH BU, VAS BU, OSS BU and OHQ BU. As the necessary corresponding information is not available and the cost to develop it would be excessive, the segment information for the immediately preceding year is not restated to reflect the change.

Financial year ended 31 December 2008
