It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

Review of results for the quarter ended 30 June 2010 as compared to corresponding quarter ended 30 June 2009

Group revenue analysed by business units for the quarter under review is as follows: -

	Q2 2010 S\$'000	Sales mix %	Q2 2009 S\$'000	Sales mix %
Mobile Technology (TECH BU)	1,561		4,176	
Mobile Value-Added-Service (VAS BU)	828		1,237	
Less: Inter-segment sales	(245)		(2,227)	
Proprietary Solutions	2,144	77	3,186	83
Operation Support Systems (OSS BU)	678	24	919	24
Less: Inter-segment sales	(32)	(1)	(248)	(6)
Total	2,790	100	3,857	100

The Group recorded consolidated revenue of S\$2.8 million for the quarter ended 30 June 2010, representing an decrease of 28% compared to revenue recorded for the corresponding quarter ended 30 June 2009.

The reduction in revenue recorded in the quarter under review was attributable to the lower revenue contributed by all BUs. This was mainly due to decrease in new system sale projects and lower revenue contribution from revenue share projects.

As a result of the decrease in revenue, the Group recorded lower net profit of S\$0.4 million, representing a 51% decrease, and lower EBITDA of S\$0.6 million, as compared to a net profit of S\$0.8 million and EBITDA of S\$1.2 million respectively for the corresponding quarter ended 30 June 2009. The decrease in net profit of 51% despite revenue being lower only by 28% was mainly due to the following factors:

- * A decrease in gross profit margin to 56% for the quarter under review, as compared to 61% for the corresponding quarter ended 30 June 2009. This lower gross profit margin was mainly attributable to a less favourable revenue mix for the current quarter comprising higher external hardware and software costs; and
- * An increase in distribution costs of S\$0.6 million for the quarter under review, as compared to S\$0.4 million for the corresponding quarter ended 30 June 2009. This increase was due to the expansion of the sales and business development headcount of the group.

The impact of the above was however partially offset by the following factors:

- * A net foreign exchange gain of S\$0.1 million in the quarter under review, primarily due to foreign exchange gains associated with SGD and EUR denominated assets and liabilities respectively for the MYR reporting subsidiaries of the Group for the current quarter. In comparison, a net foreign exchange loss of S\$0.2 million was recorded in the corresponding quarter in 2009;
- * A decrease in depreciation charges to S\$0.1 million for the quarter under review, as compared to S\$0.3 million for the corresponding quarter ended 30 June 2009. This was due to certain plant and equipment of the Group reaching the end of their estimated useful lives in late 2009; and
- * An increase in interest income to S\$0.2 million for the quarter under review, as compared to less than S\$0.1 million recorded for the corresponding quarter ended 30 June 2009. This was primarily due to interest received from one of the Group's major receivables under an installment payment scheme.

Review of results for the six month period ended 30 June 2010 as compared to corresponding period ended 30 June 2009

The Group recorded consolidated revenue of S\$7.8 million for the six month period ended 30 June 2010, representing a decrease of 8% compared to revenue recorded for the corresponding period ended 30 June 2009. The lower revenue recorded in the period under review was mainly attributable to the lower revenue contributed by TECH and VAS BUs, which was partly offset by the improvement in revenue recorded by OSS BU.

The reduction in revenue recorded by both TECH and VAS BUs for the six month period ended 30 June 2010 was mainly due to the slower than expected realization of sales opportunities from the various regions of focus of the Group resulting in comparatively lower new system sale revenue. This is due to the following factors:

- * certain mobile network operators undergoing major core network upgrades, including various stages of 3G core network roll out or expansion;
- * some mobile network operators taking a more conservative stance during the first half of the year in the wake of macroeconomic uncertainty; and
- * sales and business development activities in Middle East & Africa region in the earlier part of 2010 being primarily in the early stage of the sales cycle.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on (continued)

All the above factors had resulted in a build-up of sales opportunities which are anticipated to be progressed and converted in the second half of 2010. In addition to the lower new system sale revenue, lower revenue contribution from revenue share projects of the Group was recorded following the cessation of certain revenue share contracts in late 2009 and early 2010. Revenue share income from new revenue projects is expected to compensate for the lost revenue share income from discontinued projects in due course.

As a result of the decrease in revenue, the Group recorded lower net profit of S\$1.2 million, representing a 27% decrease, and lower EBITDA of S\$1.7 million, as compared to a net profit of S\$1.6 million and EBITDA of S\$2.3 million respectively for the corresponding period ended 30 June 2009. The decrease in net profit of 27% despite revenue being lower only by 8% was mainly due to:

- * The flow down effect on gross profit recorded following the reduction in revenue;
- * A net foreign exchange loss of S\$0.1 million recorded in the six month period under review, primarily due to a revaluation loss associated with SGD and USD denominated assets of the Group's MYR reporting subsidiaries for the current six month period. In comparison, a net foreign exchange gain of less than S\$0.1 million was recorded in the corresponding period in 2009; and
- * Expansion of headcount within BUs to cater for anticipated growth within South East Asia and in preparation for expansion in other regions.

Review of the Group's financial position as at 30 June 2010 as compared to the Group's financial position as at 31 December 2009

Current assets decreased by S\$1.1 million or 5% from S\$24.5 million as at 31 December 2009 to S\$23.4 million as at 30 June 2010. This decrease was mainly attributable to the decrease in trade and other receivables by S\$5 million as a result of lower revenue recorded during the quarter under review and the improvement in receipts from trade and other receivables. The improvement in receipts had contributed to the increase in cash and cash equivalents held by the Group to S\$18.8 million as at 30 June 2010, from S\$15 million as at 31 December 2009.

Total non-current assets of the Group increased by S\$1.3 million or 13%, from S\$10.3 million as at 31 December 2009 to S\$11.6 million as at 30 June 2010. This increase was mainly attributable to intangible assets increasing by S\$0.7 million, and plant and equipment increasing by S\$0.5 million as a result of investment in intellectual properties and new revenue share assets.

Total liabilities of the Group decreased by S\$2.4 million (or 29%) from S\$8.1 million as at 31 December 2009 to \$5.7 million as at 30 June 2010. The decrease is mainly due to the reduction in trade and other payables.

Review of the Group's cash flow for the quarter and six month period ended 30 June 2010 as compared to the corresponding periods ended 30 June 2009

The Group's cash used in operations for the quarter under review was S\$1.1 million, a decrease of 143% as compared to cash from operations of S\$2.7 million for the corresponding quarter ended 30 June 2009. This decrease was mainly attributable to lower revenue recorded and hence the decrease in collections from trade and other receivables.

Cash from operations for the six month period ended 30 June 2010 was S\$3.7 million, a decrease of 21% as compared to S\$4.8 million for the corresponding period ended 30 June 2009. This decrease was mainly due to lower revenue recorded and hence the decrease in collections from trade and other receivables.

Operating cash flow before working capital changes for the current quarter and six month period of 2010 decreased to S\$0.3 million and S\$1.2 million respectively as compared to S\$0.9 million and S\$1.7 million respectively for the corresponding periods in 2009. This decrease in operating cash flow is mainly due to lower profitability of the Group in the current quarter and six month period of 2010 of S\$0.4 million and S\$1.2 million respectively as compared to the profit before income tax of S\$0.9 million and S\$1.6 million respectively in the corresponding period in 2009.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No profit forecast has been issued for the financial period under review.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The Group will continue to execute the strategies for growth and development as described in its annual report for the financial year ended 31 December 2009. The key strategies being pursued by the Group are:

* **Defend Existing Businesses**

The focus for TECH BU and VAS BU in South East Asia will be on defending existing market share by ensuring that the service delivery and solution portfolio of the Group is superior to competition while remaining commercially competitive.

As for OSS BU, focus will continue to be applied on capturing opportunities in the growing business and operation support systems (BSS/OSS) segment.

* Re-Establish Growth Path

The Group will re-establish its growth path both organically and by way of acquisition of and/or strategic investment in complementary businesses.

Organic growth is expected to be achieved through the further development and release of new application and platform products in the areas of business support, service analytics, service lifecycle management, interactive mobile marketing and advertising, and mobile internet-driven VAS including mobile media services.

The Group has established a new business unit to address mobile media growth opportunities within its regions of focus and is progressing towards achieving commercialisation of its first service in the second half of 2010.

Inorganic growth will also be pursued as the Group now has the capacity to direct a significant proportion of its capital towards acquisition(s) and/or strategic investment(s) in complementary businesses to drive the future profit growth and deliver improvements in return on shareholders' equity.

As announced on 28 July 2010, the Group has announced the proposed acquisition of a shop-office located at Lot 3A-5-1, 5th Floor, Block 3A, Plaza Sentral, Kuala Lumpur to realise higher returns on its capital until such time that suitable acquisition(s) and/or investment(s) in complementary businesses are identified and completed.

* Brand Building

The Group has also embarked on a brand building initiative that focuses on the repositioning of the Group towards its customers, business partners and shareholders. The first visible outcome of this initiative is the revitalised corporate identity for the Group, signified by a refreshed logo and an updated corporate website.

* Prospects for 2010

With the above initiatives in train and level of business activities seen during the first half of the year, the Group is expected to record another positive year in 2010, including making further progress to meet the requirements of the Singapore Exchange for the Group's removal from the Watch List.
