1(b)(ii) Aggregate amount of group's borrowings and debt securities.

Details of any collateral

The Company has issued a financial guarantee to a bank for banking facilities granted to its subsidiary. The banking facilities are secured by fixed deposits of the subsidiary amounting to approximately \$362,000, a personal guarantee of a director of the subsidiary and corporate guarantee of the Company of RM1,530,000 (equivalent to \$595,000 (2012: \$611,000)). The Company has not recognised any liability in respect of the guarantee given to the bank for banking facilities granted to its subsidiary as the management has assessed that the likelihood of the subsidiary defaulting on repayment of its facility is remote.

As at the end of the financial period, the outstanding facilities covered by the guarantee are \$Nil (2012: \$Nil). The financial guarantee requires the guarantor to reimburse the bank if the subsidiary fails to make principal or interest repayments when due in accordance with the terms of the facility. There has been no default or non-repayment since the utilisation of the banking facilities.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

Review of results for the third quarter ended 30 September 2013 as compared to corresponding quarter ended 30 September 2012

Group Revenue

The Group achieved consolidated revenue of S\$4.2 million for the quarter ended 30 September 2013 ("Q3 2013"), an increase of 16% against revenue recorded in the quarter ended 30 September 2012 ("Q3 2012"). The increase in Group revenue for Q3 2013 reflects the improved revenue performance of TECH, VAS and OSS BUs.

TECH BU recorded revenue of S\$1.6 million in Q3 2013, a marginal improvement on the S\$1.5 million achieved in Q3 2012. This 3% increase was driven by the higher system sale contract revenues achieved by TECH BU in the SEA region.

VAS BU closed the quarter with higher revenue of S\$1.8 million in Q3 2013 as compared to S\$1.5 million for Q3 2012. This 20% increase was primarily driven by higher system sale and managed service revenues from the SEA and MEA regions in the current quarter.

OSS BU contributed improved revenue of S\$0.7 million in Q3 2013, an increase of 35% from the S\$0.5 million recorded in Q3 2012. The increase in OSS BU revenue was due to higher managed service revenues from the SEA region.

OHQ BU continued to contribute to Group revenue with S\$0.06 million in rental income from the investment property acquired in early 2011.

The Group's sales mix for the current quarter shows a decrease in the proportionate contribution of revenue of a recurring nature, with revenue from managed service contracts representing 82% of the Group's total revenue for Q3 2013 as compared to 87% for Q3 2012. The lower contribution of managed service contracts to the Group's revenue mix is mainly attributable to the improvement in system sale revenue from S\$0.5 million in Q3 2012 to S\$0.8 million in Q3 2013, arising from the higher system sale revenues achieved by TECH and VAS BUs.

Group Gross Profit and Gross Profit Margins

The Group recorded gross profit of S\$2.4 million and a gross profit margin of 58% in Q3 2013, as compared to the S\$2.3 million and 63% realised respectively in Q3 2012.

Gross profit for the quarter did not improve significantly in spite of the 16% rise in revenue for the quarter under review. This was due to the higher proportion of system sales recorded in Q3 2013 and an overall decline in gross profit margin for both the system sale and managed service contract revenues of the Group.

The Group's system sale contracts typically have higher third-party cost components and therefore yield relatively lower gross profit margin compared to the managed service contracts. The higher proportion of system sales recorded in Q3 2013 coupled with higher system sales contribution from OSS BU which system sale contracts typically have an even higher proportion of third party costs compared to TECH and VAS BUs, weighed down the overall gross profit margin of the Group for the quarter under review.

The gross profit margin recorded by the Group on managed service contract revenues decreased marginally to 57% in Q3 2013 from 59% in Q2 2012. This lower gross profit margin had arisen due to higher amortisation and depreciation costs relating to intellectual properties and equipment that have been commissioned for use in managed service contracts, amounting to S\$0.5 million in Q3 2013 (Q3 2012: S\$0.4 million) and a decline in the revenue contribution of certain mature, higher-margin managed service contracts.

Group Other Operating Income

The Group recorded other operating income of S\$0.1 million in Q3 2013, a decrease of 36% on the S\$0.2 million recorded in Q3 2012. This decline in the other operating income of the Group was mainly due to the absence of interest income relating to one of the Group's major receivables that was subject to an installment payment scheme. This installment payment scheme was fully settled in the first half of 2013.

Group Operating Expenses

The Group recorded operating expenses of S\$2.3 million in Q3 2013, an increase of 20% on the S\$1.9 million of operating expenses in Q3 2012. This increase is attributable primarily to a 23% rise in technical support expenses and distribution costs from S\$1.3 million in Q3 2012 to S\$1.6 million in Q3 2013 in connection with the expansion of the technical, sales and business development headcount of the Group, and a higher foreign exchange loss of S\$0.2 million recorded in Q3 2013 as compared to S\$0.1 million in Q3 2012. This increase in foreign exchange loss was mainly a result of the unfavourable exchange rate movement of the PKR against SGD during Q3 2013.

Group Net Profit and EBITDA

In spite of the higher revenue achieved, the Group recorded net profit of S\$0.06 million in Q3 2013, significantly lower than the S\$0.4 million recorded by the Group in Q3 2012. This decline in net profit is attributable to the higher operating expenses recorded by the Group in Q3 2013, which could not be offset completely by the relatively smaller improvement in Group gross profit. By extension of the net profit result delivered, the Group also recorded lower EBITDA of S\$0.7 million in Q3 2013 as compared to the S\$0.8 million achieved in Q3 2012.

(1) System Sale – this refers to contracts that involve the outright purchase by customers of systems comprising the Group's products and technologies, and where these systems are in turn delivered as turnkey solutions. The scope of work for a system sale contract includes system design, implementation, testing and commissioning services.

(2) Managed Service – this refers to contracts that involve the provision of both systems comprising the Group's products and technologies as well as the Group's professional services, on a recurring, revenue sharing, software-as-a-service, pay-per-use or monthly or quarterly fixed and variable fee basis. Also treated as a managed service contract are system maintenance and technical support contracts with existing customers of the Group.

Review of results for the nine months ended 30 September 2013 as compared to corresponding period ended 30 September 2012

Group Revenue

The Group achieved consolidated revenue of S\$13.1 million for the nine-month period ended 30 September 2013 ("9M 2013"), an increase of 10% against the revenue recorded in the corresponding period of 2012 ("9M 2012"). The increase in Group revenue for 9M 2013 is attributable to the improved revenue performance of TECH, VAS and OSS BUs.

TECH BU achieved revenue of S\$4.8 million in 9M 2013, an increase of 4% from the S\$4.7 million recorded in 9M 2012. This improvement in revenue was mainly due to the higher system sale contract revenues realised by TECH BU in the SEA region.

VAS BU closed the nine-month period with revenue of S\$5 million, an increase of 13% on the S\$4.4 million recorded in 9M 2012. This increase was driven primarily by the higher system sale and managed service contract revenues generated by VAS BU in the SEA region.

OSS BU recorded revenue of S\$3.1 million in 9M 2013, an increase of 17% from the S\$2.7 million recorded in 9M 2012. This increase in revenue was largely due to the higher managed service contract revenues realised by OSS BU in the SEA region.

OHQ BU continued to contribute to Group revenue with S\$0.2 million in rental income from the investment property acquired in early 2011.

The Group's sales mix in 9M 2013 showed a slight decrease in the proportionate contribution of revenue of a recurring nature, with revenue from managed service contracts representing 78% of the Group's total revenue in 9M 2013 as compared to 80% in 9M 2012. The lower contribution of managed service contracts to the Group's sales mix is mainly attributable to the improvement in system sale contract revenues of the Group, which had risen 21% from S\$2.4 million in 9M 2012 to S\$2.9 million in 9M 2013. This rise in system sale contract revenues of the Group is a result of the higher system sale contract revenues achieved by TECH and VAS BU.

Group Gross Profit and Gross Profit Margins

The Group achieved gross profit of S\$7.5 million in 9M 2013, corresponding to a gross profit margin of 57%. In comparison, the Group recorded 7% lower gross profit of S\$7 million in 9M 2012 but at a marginally higher gross profit margin of 59%. The higher gross profit recorded by the Group in 9M 2013 is directly attributable to the improvement in Group revenue performance which was only partly offset by the decline in gross profit margin.

Although Group gross profit was higher in 9M 2013, gross profit margin was lower at 57% versus 59% of 9M 2012. This was primarily due to the lower gross profit margin realised on the Group's managed service contract revenues, which showed a decline from 59% in 9M 2012 to 56% in 9M 2013. This decline in gross profit margin had arisen due to the higher amortisation and depreciation costs incurred relating to intellectual properties and equipment that have been commissioned for use in managed service contracts, amounting to S\$1.4 million in 9M 2013 (9M 2012: S\$1.2 million).

Group Other Operating Income

The Group recorded other operating income of S\$0.5 million in 9M 2013, 92% lower than the S\$5.9 million achieved in 9M 2012, mainly due to the absence of the S\$5.3 million fair value gain recorded in 9M 2012 in relation to the Group's pre-existing, pre-acquisition 40% equity interest in Ahead Mobile Sdn Bhd ("AMSB").

In 9M 2013, the Group's interest income increased to S\$0.3 million versus the S\$0.2 million recorded in 9M 2012. This increase in interest income is attributable mainly to the interest earned on deposits held in escrow in connection with contingent consideration payable for the AMSB acquisition. The additional interest income in 9M 2013 was however offset by lower foreign exchange gain recorded as compared to 9M 2012 because of the unfavourable foreign exchange rate movement of the EUR against MYR within 9M 2013.

Group Operating Expenses

The Group recorded operating expenses of S\$6.4 million in 9M 2013, 6% higher than the S\$6.1 million in operating expenses for 9M 2012. This increase in operating expenses is attributable mainly to a 15% rise in technical support expenses and distribution costs from S\$3.9 million in 9M 2012 to S\$4.5 million in 9M 2013 in connection with the expansion of the technical, sales and business development headcount of the Group.

Group Net Profit and EBITDA

The Group recorded lower net profit of S\$1.1 million and EBITDA of S\$2.8 million in 9M 2013 as compared to the S\$6.6 million in net profit and S\$8.2 million in EBITDA achieved by the Group for 9M 2012. The lower net profit and EBITDA results recorded in 9M 2013 are attributable to the absence of the S\$5.3 million fair value gain recorded in 9M 2012 in relation to the Group's pre-existing, pre-acquisition 40% equity interest in AMSB.

Excluding the effect of the said fair value gain, the Group recorded a 12% and 3% decrease in net profit and EBITDA for 9M 2013 respectively, as compared to the adjusted net profit of S\$1.3 million and adjusted EBITDA of S\$2.9 million for 9M 2012. The decrease in both adjusted net profit and EBITDA is attributable to higher operating expenses recorded in 9M 2013 which could only be partly offset by the increase in gross profit of the Group in 9M 2013.

Review of the Group's financial position as at 30 September 2013 as compared to the Group's financial position as at 31 December 2012

Non-cash current assets of the Group increased to S\$9.4 million as at 30 September 2013 from S\$7.9 million as at 31 December 2012. This 18% increase of S\$1.5 million was mainly due to an increase in trade and other receivables which includes a reclassification of certain receivables from non-current to current.

Total non-current assets of the Group decreased from S\$23.8 million as at 31 December 2012 to S\$21.5 million as at 30 September 2013. This was mainly due to ongoing depreciation and amortisation charges on plant and equipment and intangible assets, coupled with the above-mentioned reclassification of certain receivables from non-current to current.

Total liabilities of the Group decreased from S\$7.9 million as at 31 December 2012 to S\$6.2 million as at 30 September 2013. This 22% decrease of S\$1.7 million was mainly due to a reduction in trade and other payables.

Review of the Group's cash flow for the quarter and nine months ended 30 September 2013 as compared to the corresponding periods ended 30 September 2012

The Group's cash used in operations for Q3 2013 was S\$0.4 million, as compared to cash generated from operations of S\$1.0 million recorded for Q3 2012. This significant decline was primarily due to the lower collections from trade receivables in Q3 2013.

The Group's net cash used in investing activities for Q3 2013 amounted to S\$0.3 million as compared to S\$0.1 million for Q3 2012. This increase was due to a restricted deposit placed in Q3 2013 for trade finance facilities.

The Group's net cash used in financing activities for Q3 2013 and 9M 2012 amounted to S\$0.8 million as compared to S\$0.5 million for Q3 2012 and 9M 2012. This increase was mainly due to a higher dividend payout in the 2013 to both non-controlling interest and equity holders of the Company.

The Group's cash generated from operations for 9M 2013 was S\$2.1 million, a decrease of 11% as compared to the S\$2.4 million recorded for 9M 2012. This decrease is attributable mainly to the significantly lower collections from trade receivables in 9M 2013.

The Group's net cash used in investing activities for 9M 2013 amounted to S\$0.5 million as compared to S\$8.3 million for 9M 2012. The significantly higher net cash used in investing activities in 9M 2012 was due to the payment of the first tranche of purchase consideration amounting to S\$4.0 million, and the placement of S\$3.6 million in deposits relating to contingent consideration with an escrow agent, all in connection with the acquisition of AMSB.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No profit forecast has been issued for the financial period under review.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The directors and management of the Group expect the 2013 financial year to remain challenging, largely due to the persistent downward pressure on the pricing of solutions that are delivered on a system sale model. All of the Group's BUs experienced an intensification of competitive pressure in all regions of focus in 2012 and for the 2013 year-to-date. This is expected to continue in the remainder of the 2013 financial year.

The relatively soft system sale market conditions are however expected to be countervailed in future reporting periods by progress in growing the managed services contract portfolio of the Group. With a significant number of new application services on a managed service model due for launch in 2013, the contribution that was made by AMSB in growing 2012 revenue-sharing contract revenues of the Group is expected to be substantially bolstered by income from VAS BU's own new contracts. The number of revenue sharing contracts under VAS BU is expected to increase substantially over the next two financial years, driven by utility-focused application services that have undergone research and development in recent years and that have been well-received by the market. Given the typical two-to-three year gestation period for application services to achieve steady-state revenues, the full impact of these new contracts on Group financial performance is expected to be realised by 2014 and 2015.

The Group will continue to search for opportunities for strategic investment and acquisition in the remainder of the 2013 financial year. With the ramping up of internet usage - especially the mobile broadband variety - in the SEA and SA regions over the past two years expected to persist as mobile internet devices become more affordable, the directors and management of the Group anticipate that internet-delivered application services will experience a resurgence in growth, as should the market for mobile and digital advertising solutions. The Group's growth by acquisition and strategic investment plan in the year ahead will focus primarily on these growth businesses in the SEA and SA regions.
